Level 0: Connecting to the Remote Server

Objective: Establish an SSH connection to the Bandit server.

Command used:
$ ssh bandit0@bandit.labs.overthewire.org -p 2220

Procedure:

1. Opened Windows Command Prompt.
2. Entered the SSH command with the correct hostname and port.
3. Entered the initial password, bandit0, when prompted.
4. Verified that the remote shell was accessible.

Result: Successfully connected to the Bandit server and established the initial environment for the subsequent challenges.

Concept learned: SSH provides secure remote access to a system through an encrypted connection. The -p option specifies the port on which the SSH server is listening.

```
bandit0@bandit:~$ ls
readme
bandit0@bandit:~$ cat readme
Congratulations on your first steps into the bandit game!!
Please make sure you have read the rules at https://overthewire.org/rules/
If you are following a course, workshop, walkthrough or other educational activity,
please inform the instructor about the rules as well and encourage them to
contribute to the OverTheWire community so we can keep these games free!

The password you are looking for is:

bandit0@bandit:~$
